Introduction to the American College of Medical Genetics and Genomics (ACMG)

The American College of Medical Genetics and Genomics (ACMG) is the only nationally recognized interdisciplinary professional membership organization that represents the interests of the entire medical genetics team including clinical geneticists, clinical laboratory geneticists, and genetic counselors. Together, the ACMG and its members engage in coordinated efforts to improve patient care, ensure optimal reimbursement for genetic service providers, establish standards of care and laboratory policy, and educate members about advances important to their practices. Elsevier and ACMG are pleased to announce the launch of the new Open Access sister journal *Genetics in Medicine Open* in January 2023, <https://www.journals.elsevier.com/genetics-in-medicine-open>.

About *Genetics in Medicine*

The journal's mission is to enhance the knowledge, practice, and understanding of medical genetics and genomics through publications in clinical and laboratory genetics and genomics, including ethical, legal, and social issues as well as public health. As genetics and genomics continue to increase in importance and relevance in medical practice, the journal will be an accessible and authoritative resource for the dissemination of medical genetic knowledge to all medical providers through appropriate original research, reviews, commentaries, standards, and guidelines. *Genetics in Medicine* encourages research that combats racism, includes diverse populations and is written by authors from diverse and underrepresented backgrounds.

About *Genetics in Medicine Open*

Genetics in Medicine Open (*GIM Open*) is an open access journal with a broad focus on medical genetics and genomic medicine, including all aspects of therapy. It will have a strong emphasis on diversity, equity, and inclusion and will have a double anonymous review process for submitted manuscripts. Positioned as an

official journal of the American College of Medical Genetics and Genomics and the companion journal of *Genetics in Medicine*, *GIM Open* aims to be an international journal publishing research studies that advance the knowledge, understanding, and practice of medical genetics and genomic medicine for all continents. *GIM Open* welcomes submissions of Original Research, Reviews, Commentaries and Brief Reports in the areas of clinical genetics, cytogenetics, molecular genetics, biochemical genetics, reproductive medicine, cancer genetics, pharmacogenomics, clinical trials, population genetics, public health, genome-wide association studies, polygenic risk, bioinformatics, methodologies, clinical implementation, ELSI (ethical, legal and social issues), genetic counseling, and practice standards and guidelines.

Webinars

Webinars

The American College of Medical Genetics and Genomics (ACMG) and Elsevier are pleased to announce a series of journal branded webinar opportunities for 2023. In addition to offering targeted promotion to the ACMG community, webinars offer audience engagement and lead generation benefits. Topics for 2023 have been developed by journal editors as follows:

- The VUS: Here Today, Gone Tomorrow?
- Artificial Intelligence Roles in Genomics.
- Precision Medicine: Dream or Reality?
- Genomics in Newborn Screening.
- CDCs Tier 1 Genomics Applications and their Importance to Public Health: Are We There Yet?

Subject matter expert speakers for each webinar will be appointed by the journal editors and scheduling will be determined by the availability of the speakers. Topics are offered on a first come first served basis.

For more information about sponsoring a webinar, please contact your regional sales representative.

Genetics in Medicine and Genetics in Medicine Open Reprint Capabilities

The Power of Credibility

Reach targeted HCPs with original, authoritative content

Genetics in Medicine and *Genetics in Medicine Open* offer top research and review paper available as print or digital reprints. Whether you are launching a new product, trying to increase sales of existing products or repositioning established ones, Elsevier article reprints provide an exclusive and distinctive way to promote your brand using the strengths of our multimedia programs and your published work.

Hard Copy Reprints

Customizable Options

Printing

- Article translation
- Inclusion of: company/brand logo, prescribing information & ISI and inventory number

Packaging

- Resizing: Pocket/Digest
- Article Collections/Supplements
- Shrink-wrapping
- Polybagging—Outserts provided to targeted HCPs

Genetics in Medicine and Genetics in Medicine Open Reprint Capabilities (cont'd)

ePrints

Educate HCPs on the latest treatment options, or help to drive a change in existing prescribing habits by using ePrints - encrypted, electronic copies of PDF articles that you can distribute by email, post on a website or use in Rep e-detailing.

Multicopy Prints

Elsevier ePrints are created with official journal covers. Any article available in Elsevier's digital archive can be made into an ePrints PDF valid for 12 months.

Mobile ePrints

Downloadable ePrints designed for use on mobile and tablet devices. Can be used for email blasts and on-the-go consumption - perfect for Rep e-detailing.

QR Codes

Integrate QR codes into your advertising to allow quick mobile access to your reprint.

Order Reprints Online

Visit us at medreprints.com where selecting and ordering your reprints is simple:

- Search for articles by journal, specialty, keyword, and more
- Receive your quote online in 24 hours or less
- Place your order online, and track the production process
